Giroxx GmbH

Member of the INTL FCStone Group

Senior Developer – (m/f/d)

Frankfurt am Main

Permanent employment

INTL FCStone Ltd (“IFL”) is a wholly owned subsidiary of INTL FCStone Inc., a publicly traded company on NASDAQ (INTL). INTL FCStone, including its subsidiaries, provides clients across the globe with a comprehensive array of customised financial services and tools to help them protect their margins and manage volatility. A pioneer in specialised financial services, we open markets for clients underserved by other financial institutions with insight, guidance and transparency.

IFL’s customers include the producers, processors and end users of virtually every major traded commodity; commercial counter-parties; governmental, non-governmental and charitable organizations; institutional investors; brokers; professional traders; commercial banks; and major Investment banks.

IFL is an FCA authorised and regulated firm to provide trade execution, clearing and advisory services focusing primarily on the commodities and foreign exchange sectors. IFL is also registered as a payment services firm in support of its niche Global Payments business.

### Job purpose

Seeking a Full-Stack Developer to help support our Global Payments Division.

---

### Primary Responsibilities:

- Developing and maintaining high-quality software products supporting the organization's standards and infrastructure, using Microsoft .NET Framework, SQL and integrated system components
- Supporting and complying with documented software process and procedure requirements spanning all phases of software product life cycle
- Participating in meetings with other team members to design and develop high-quality, object-oriented business objects and conducting research and evaluation of software-related technologies and products
- Collaborating with other team members
- Managing your own work time and priorities in accordance with aggressive development deadlines, best practices and a quality/delivery methodology, such as Agile Development, that includes development standards

---

### Knowledge and Experience

- Bachelor's degree in Computer Science or related field
- At least 10 years of experience with .NET Framework development, C# and SQL Server

---
